

ACCT 302 – Cost Accounting

College of Business and Economics

School of Accountancy

Instructor:	Chungyool (Chung-yool) Kim
Instruction Modality:	In-Person
Office:	SGMH 4361
E-mail:	chunkim@fullerton.edu
Phone:	(657) 278-7176
Office Hours:	Mo 4:00 p.m.-5:00 p.m. in person at SGMH 4361 We 4:00 p.m.-6:00 p.m. in person at SGMH 4361 or by appointment
Preferred Communication:	E-mail
Response Time:	Students can expect to receive responses to email inquiries within 48 hours, except on weekends or holidays.

CLASS MEETING TIMES

Class Days, Time, and Location

- **Section 02:** Mondays and Wednesdays from 2:30 p.m. to 3:45 p.m., SGMH 2207.

Synchronous/Asynchronous Online Instruction

Occasionally, the class may be held asynchronously online, in which case a recorded lecture video will be available on Canvas.

COURSE INFORMATION

Pre/Corequisites

- Prerequisites: ACCT 201B and completion of all lower-division business administration core courses with a grade of C or better.
- Co-requisite: Business Administration 301. Students who do not meet these prerequisites may be administratively dropped from the class at any time during the semester.

University Catalog Description

Accounting information for management of manufacturing and service enterprises; cost records; cost behavior and allocation; product costing and inventory valuation; flexible budgeting; standard costs; responsibility accounting; cost planning and control; and operating decision analysis.

Deadline to Withdraw from Classes (Fall 2026)

- The last day to drop classes without a grade of "W" is **Tuesday, September 8th, 2026.**
- Final deadline to submit a withdrawal request from classes with a grade of "W" for a serious non-medical reason is **Friday, November 13th, 2026.**
- Final deadline to submit a withdrawal request of "W" for medical reasons is **Friday, December 4th, 2026.**

STUDENT LEARNING OUTCOMES**Course Objectives**

- Understand cost terms and concepts used in the design of costing systems.
- Understand cost concepts related to Job costing, Activity-based costing, and Process costing.
- Demonstrate knowledge of standard cost and budgeting as it applies to flexible budgets and responsibility accounting for operation control.
- Distinguish among Absorption Costing and Variable Costing.
- Use data analytics to estimate cost functions and analyze cost behavior.
- Implement cost-volume-profit analysis.
- Apply the concepts of sunk costs, relevant costs, and opportunity costs in decision making.
- Apply cost accounting information in pricing decisions.

TEXTBOOK / MATERIALS**Course Materials**

- Textbook - Datar and Rajan, Horngren's Cost Accounting: A Managerial Emphasis, 18th edition
- MyLab Accounting from Pearson – It will be used for the completion of homework assignments. You can purchase the access code with the textbook or separately.

Textbook and MyLab Options

- Canvas (Customized version for CSUF)
 - E-book and MyLab Access (24 months) \$98.99
 - Loose-leaf Textbook (Textbook only through MyLab) \$64.99
- Bookstore – best for financial aid (Customized version for CSUF)
 - E-book and MyLab Access (24 months) \$TBA

Use **"Access Pearson"** in Canvas. It will guide you to register for the course on MyLab and provide purchase options from the publisher.

COURSE COMMUNICATION**Canvas**

All course announcements and individual emails are to be sent through Canvas, which only uses CSUF email accounts. Therefore, you **MUST** check your CSUF email on a regular basis (several times a week) for the duration of the course. Canvas will be used in this class to post documents, announcements, and grades. Class notes are normally posted at least one day prior to class for students to print and use during the lecture. Please print or download them prior to class to facilitate note taking in class.

GRADING CRITERIA AND STANDARDS

Your final letter grades will be graded on a 90/80/70/60% scale with plus/minus grading as below:

A range (90% – 100%)	F (Below 60%)
B range (80% – below 90%)	
C range (70% – below 80%)	
D range (60% – below 70%)	

Plus/minus within the range will be determined based on the distribution of the final grade. You are required to have a grade of “C” or better to pass the course. I will assess based on the total points you accumulate for each of the following:

Exam 1	120	16%
Exam 2	120	16%
Final	150	20%
Attendance	15	2%
Data Analytics Projects	120	16%
Other Assignments	max points -	225 30%
- Tableau LinkedIn Learning Course – 10 points - MyLab Assignments – 12 @ 10 points each - Group Exercises – 11 @ 3 points each - Syllabus Quiz – 5 points - Quizzes – 7 @ 12 points each		
Total	750	100%

• Exams

Two mid-term exams and a final exam are given. **Please note the tentative exam dates on your calendar at the beginning of the term.** Exams will be administered in-person on the days indicated in the class schedule. **These dates are fixed and will not be changed.** All work on any exam or quiz must reflect your individual effort. Students are expected to follow University policies for Academic Integrity. Makeup exams will only be given for acceptable absences as determined by the instructor. Permission to miss an exam and take a makeup must be received before the scheduled exam by contacting the instructor directly.

• Attendance and Class Participation Policy

All classes are in-person unless noted otherwise in the tentative class schedule on page 9. Regular attendance and participation are expected for this course. Extended absences may negatively impact your ability to succeed in this class.

You are required to attend the class for the section you are enrolled in. This means you cannot attend lectures for a different section (e.g., attending Section 08 if you are enrolled in Section 02). This policy is in place to manage classroom capacity and ensure all students have a seat in their assigned class. If you have concerns about your ability to participate, please contact your instructor.

We will use Mentimeter, linked through Canvas, to take attendance on the days of class. During class, I will announce a word and you will select it from a short list of options in that day's Mentimeter activity, accessed through the linked Canvas assignment — no separate account or registration is required; you use your

existing Canvas login. You must make your selection during the timed window I open in class; the activity is not available before or after that window, so you must be present in class to participate.

When calculating final letter grades, I will assign points for attendance as follows:

Attendance	> 70% of classes	15 points
Attendance	> 40% to 70% of classes	0.5 point for each % over 40%
Attendance	<= 40% of classes	0 points

There are a total of 24 in-person classes, excluding first week of class, holidays, Exam 1, Exam 2, and Final Exam dates. Therefore, you will earn 15 points if you attend more than 70% of classes (17 classes or more); 5 points (0.5 point $\times$ (50% - 40%)) if you attend 50% of classes (12 classes); and 0 points if you attend 40% or fewer of the classes (9 classes or less).

- **Data Analytics Project**

There is one special group project for this class worth 120 points. It will involve using concepts from this class and using Tableau to visually present your analysis and recommendations. There will be a total of two submissions over the duration of the semester and one data analytics quiz. The dataset and other details of the assignment will be discussed in the class.

- **Other Assignments (Tableau LinkedIn Learning Course, Homework, Group Exercises, Quizzes, Attendance)**

- **Tableau LinkedIn Learning Course**

The Everybody's Introduction to Tableau assignment is designed to introduce Tableau software that you will use for data analytics project. To complete the assignment and earn 10 points, you will take a LinkedIn Learning course through Canvas. The deadline to complete this assignment is December 11, 2026.

- **Homework Assignments**

The homework assignments are intended to keep you current with the material. We will use MyLab, an online homework manager, to complete homework for this course. You will need a registration code to access the site. This code either comes with the purchase of a new text or can be purchased separately from Pearson's website. You will need to register to access the homework assignments.

There are 12 assignments (one for each chapter). Homework assignments are due at **11:59 p.m.** on the due date. Specific due dates will be shown on Canvas. Please check Canvas regularly as dates may change. You have unlimited attempts to finish the problems. Each assignment is worth 10 points.

You may use office hours or send emails to ask questions related to assignments. Assignment-related questions will be answered until 8:00 p.m. on the due date. When asking questions via email, you are required to include a screenshot or image of the problem along with your best answer or attempt at solving it.

- **Group Exercises**

11 group exercises will be completed throughout the semester, each worth 3 points. These exercises will take place in class, and you must participate to earn the points. The purpose of these exercises is to help you discover and apply important cost accounting concepts in an active learning environment while improving your oral communication and teamwork skills. Groups will typically consist of three to four

students. Group exercises will be announced in class and are graded primarily based on effort. You will receive nearly full credit for actively participating.

- **Quizzes**

- One online syllabus quiz will be given in the first week of the semester (due on 9/4 at 11:59 p.m.) and is worth 5 points.
- Seven online quizzes will be given during the semester and are worth 12 points. Please see the tentative schedule for quiz dates. These online quizzes will be taken **IN-CLASS**. So, make sure you bring laptops on the class dates with quizzes.

- **Other Assignments Grading and Make-up & Late Submission Policy**

There will be a total of 252 points available from Tableau LinkedIn Assignment (10 points), group exercises (33 points), MyLab homework (120 points), and quizzes (89 points). These points will be combined and allowed to accumulate up to a maximum of 225 points. Since there are 27 extra points available, you may substitute them freely. Given the abundance of extra points, **there will be no late assignments, homework, and no makeups for quizzes.**

- **Extra Credit Policy**

Extra credit may be awarded to all students based on the participation rate in the Student Opinion Questionnaires (SOQ). More details will be discussed in the class.

- **Regrade Policy**

Requests for re-evaluation of graded material must be made within one week of the return of the assignment. All requests must be accompanied by a written explanation of the dispute. It is your responsibility to review any posted rubrics or answer keys before submitting a re-grade request.

OTHER INFORMATION AND POLICIES

- **Academic Integrity**

Accounting Ethics Statement

Integrity plays a vital role in the accounting profession. As a result, the School of Accountancy has expectations that our students behave in a manner consistent with the demands and expectations of the accounting profession. It is the view of the School of Accountancy, that the use of all unauthorized materials, regardless of the manner obtained, are a violation of the College of Business and Economics Student Code of Ethics. This includes, *but is not limited to*, obtaining and using solutions manuals, test banks and all other copy-written materials from course textbooks not authorized by the course instructor; obtaining and using homework assignments, cases, or exams from prior students. Faculty members will report all incidents involving students who are suspected of lying, deception, plagiarism, and cheating (both attempted and actual) to the Dean of Students, Judicial Affairs and the chair of the School of Accountancy according to UPS 300.021 and UPS 300.030 (October 2010).

Academic Dishonesty/Student Conduct (CSUF UPS 300.021, (2024-2025 Online Catalog <https://catalog.fullerton.edu/> – Grading Policies - Student Records))

Academic dishonesty includes such things as cheating, inventing false information or citations, plagiarism, and helping someone else commit an act of academic dishonesty. It usually involves an attempt by a student to show a possession of a level of knowledge or skill, which he/she does not possess.

- Cheating is defined as the act of obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive, fraudulent, or unauthorized means. Examples of cheating include, but are not limited to, the following: using notes or aides or the help of other students on tests and examinations in ways other than those expressly permitted by the instructor, plagiarism as defined below, tampering with the grading procedures, copying verbatim other students' assignments, and collaborating with others on any assignment where such collaboration is expressly forbidden by an instructor. Violation of this prohibition of collaboration shall be deemed an offense for the person or persons collaborating on the work, in addition to the person submitting the work.
- Plagiarism is defined as the act of taking the specific substance of another and offering it as one's own without giving credit to the source. When sources are used, acknowledgement of the original author or source must be made following standard scholarly practice.

Students who violate university standards of academic integrity are subject to disciplinary sanctions, including failure in the course and suspension from the university. Since dishonesty in any form harms the individual, other students and the university, policies on academic integrity are strictly enforced. Academic dishonesty, in any form, when detected, will result in zero points on assignments or tests, and may result in an "F" for the course plus additional University-level disciplinary action by Judicial Affairs. For additional information, refer to the University policy in the current CSUF Catalog.

- **Classroom Management**

- I expect honest and respectful dialogue between the instructor and students, as well as among students. Disagreement and the challenging of ideas in a supportive and sensitive manner are highly encouraged. However, hostility and disrespectful behavior are not acceptable.
- All students are expected to contribute to creating an environment conducive to effective teaching and learning for everyone. Behavior that disrupts teaching or learning is unacceptable; therefore, all face-to-face or online interactions should be civilized, respectful, and relevant to the topic at hand. Diverse opinions and engaging arguments are essential to the higher learning process. However, inappropriate behavior that disrespects others or hinders their ability to learn may result in sanctions, including but not limited to removal from the classroom and/or the course. Serious or habitual offenses may lead to a referral to the Assistant Vice President of Academics, the student conduct system, Campus Safety, and/or Counseling.
- As a courtesy and sign of respect for others, you should silence your cell phone during class. You are expected not to use your cell phone during class.

- **Technical/Media/System Requirements**

Technical requirements for completing this class include:

- Student-provided personal computer with reliable Internet access. A wired Ethernet connection is strongly encouraged. Please refer to the following link for long-term checkouts if necessary: [Long-Term Checkout](#)
- If you need assistive technologies that have different computer and technology requirements, then you will be responsible for making those arrangements. Please check with [Disability Support Services](#) to determine the requirements for specific technologies and for assistance if necessary.

Students are expected to:

- Maintain and access their CSUF student email account at least three times weekly
- Use Internet search and retrieval skills to complete assignments
- Apply their educational technology skills to complete expected competencies

- Utilize other software applications as course requirements dictate
- Utilize the LMS to access course materials and complete assignments

• Technical Problems:

If you encounter any technical difficulties, contact the instructor immediately to document the problem. Then, contact: [student IT help desk](#), [email](#), phone = (657) 278-8888, walk-in [Student Genius Center](#), online chat - log into [Portal](#); click “Online IT Help”; click “Live Chat.”

For issues with Canvas: Canvas Support Hotline = (855) 302-7528, [student support chat](#).

Mission Statement: We develop future business leaders through our dedication to teaching excellence and research. Together with the accounting and business community, we accomplish this using collaborative research and an innovative and a tech-forward curriculum in a culturally diverse environment.

(Updated 01/06/26)

CBE Assessment Statement

The programs offered in College of Business and Economics (CBE) at Cal State Fullerton are designed to provide every student with the knowledge and skills essential for a successful career in business. Since assessment plays a vital role in CBE’s drive to offer the best, several assessment tools are implemented to constantly evaluate our program as well as our students’ progress. Students, faculty, and staff should expect to participate in CBE assessment activities. In doing so, CBE is able to measure its strengths and weaknesses, and continue to cultivate a climate of excellence in its students and programs.

Assurance of Learning (AoL) is an integral part of both our AACSB and WASC accreditation. For more information on our College-based assurance of learning efforts, please visit [the college’s assessment website](#).

Special Needs

During the first week of classes, inform the instructor of any disabilities or special needs that you have that may require special arrangements related to attending class sessions, carrying out writing assignments or learning components, or taking examinations. Students with disabilities need to document the disability at the Disability Support Services in UH-101.

Drops, Withdrawals, and Incompletes

The University policy on drops and withdrawals will be followed. See the University Catalog for relevant procedures and dates (<http://records.fullerton.edu/services/withdrawal.php>). A grade of “I” (incomplete) is appropriate only if circumstances beyond a student’s control force the student to miss a portion of the latter part of a course.

University Policy on Final Examinations

Final examinations, if required by the instructor, will be given at times scheduled by the University. Once established, the final examination schedule may not be changed unless approved by the school, program chairs, and the dean of the college. No make-up final examination will be given except for reasons of illness or other verified emergencies. **All classes must meet during the finals week.**

President’s Directive & Health and Safety Guidelines

Cal State Fullerton (CSUF) is actively working to maintain the safety of our campus community. To stay current with information, please visit CSUF’s Titan’s Return: A Phased Approach website. Please review the FAQs to help answer any of your questions.

Emergency Procedures Notice to Students

The safety of all students attending California State University Fullerton is of paramount importance. During an emergency it is necessary for students to have a basic understanding of their personal responsibilities and the University's emergency response procedures. In the event of an emergency, please adhere to the following guidelines.

Before an Emergency Occurs

1. Know the safe evacuation routes for your specific building and floor.
2. Know the evacuation assembly areas for your building.

When an Emergency Occurs

1. Keep calm and do not run or panic. Your best chance of emerging from an emergency is with a clear head.
2. Evacuation is not always the safest course of action. If directed to evacuate, take all of your belongings and proceed safely to the nearest evacuation route.
3. Do not leave the area. Remember that faculty and other staff members need to be able to account for your whereabouts.
4. Do not re-enter the building until informed it is safe by a building marshal or other campus authority.
5. If directed to evacuate the campus, please follow the evacuation routes established by either parking or police officers.

After an Emergency Occurs

1. If an emergency disrupts normal campus operations or causes the University to close for a prolonged period of time (more than three days), students are expected to complete the course assignments listed on the syllabus as soon as it is reasonably possible to do so.

EMERGENCY CALLS**DIAL 9-1-1**

All campus phones and cell phones on campus reach the University Police Department.

Non-emergency line: (657) 278-2515

24-hour recorded emergency information line: (657) 278-4444

2. Students can determine the University's operational status by checking the University's website at <http://www.fullerton.edu>, calling the University's hotline number at 657-278-4444, or tuning into area radio and television stations. Students should assume that classes will be held unless they hear or read an official closure announcement.

TENTATIVE CLASS SCHEDULE

Attached below is a **tentative** class schedule. **Minor changes to the schedule should be expected.** All changes will be announced in class or via announcement on Canvas.

Date	Day	Chapter	Modality	Assignment Dates
24-Aug	Mon.	Introduction and Chapter 1 The Manager and Management Accounting	In-person	
26-Aug	Weds.	Chapter 2 An Introduction to Cost Terms & Purposes	In-person	
31-Aug	Mon.	Chapter 3 Cost-Volume-Profit Analysis	In-person	• MyLab Chapters 1 & 2
2-Sep	Weds.	Chapter 3 cont.	In-person	• Syllabus Quiz due
7-Sep	Mon.	Labor Day – No Classes!		
9-Sep	Weds.	Chapter 4 Job Costing.	In-person	• MyLab Chapter 3 • Quiz #1
14-Sep	Mon.	Chapter 4 cont.	In-person	
16-Sep	Weds.	Chapter 4 cont. & Chapter 5 Activity-Based Costing and Activity-Based Management	In-person	• MyLab Chapter 4 • Quiz #2
21-Sep	Mon.	Chapter 5 cont. & Review	In-person	• MyLab Chapter 5
23-Sep	Weds.	EXAM 1	In-person	
28-Sep	Mon.	Intro to Tableau and group project	In-person	
30-Sep	Weds.	Chapter 6 Master Budget and Responsibility Accounting	In-person	
5-Oct	Mon.	Chapter 6 cont.	In-person	
7-Oct	Weds.	Chapter 7 Flexible Budgets, Direct-Cost Variances and Management and Control	In-person	• MyLab Chapter 6 • Quiz #3
12-Oct	Mon.	Chapter 7 cont.	In-person	
14-Oct	Weds.	Chapter 8 Flexible Budgets, Overhead Cost Variances and Management Control	In-person	• MyLab Chapter 7
19-Oct	Mon.	Chapter 8 cont.	In-person	
21-Oct	Weds.	Chapter 9 Inventory Costing and Capacity Analysis	In-person	• MyLab Chapter 8 • Quiz #4
26-Oct	Mon.	Chapter 9 cont. & Exam Review	In-person	• MyLab Chapter 9
28-Oct	Weds.	EXAM 2	In-person	
2-Nov	Mon.	Chapter 12 Decision Making and Relevant Information	In-person	
4-Nov	Weds.	Chapter 12 cont.	In-person	
9-Nov	Mon.	Chapter 12 cont.	In-person	
11-Nov	Weds.	Veterans Day – No Classes! (Chapter 14 Pricing Decisions and Cost Management - Asynchronous online video lecture)		• MyLab Chapter 12
16-Nov	Mon.	Chapter 16 Allocation of Support-Department Costs, Common Costs, and Revenues	In-person	• MyLab Chapter 14
18-Nov	Weds.	Chapter 16 cont.	In-person	• Quiz #5
23-Nov	Mon.	Fall Break – No Classes!		
25-Nov	Weds.	Fall Break – No Classes!		
30-Nov	Mon.	Chapter 18 Process Costing	In-person	• MyLab Chapter 16
2-Dec	Weds.	Chapter 18 cont.	In-person	• Quiz #6
7-Dec	Mon.	Chapter 18 cont.	In-person	
9-Dec	Weds.	Catch-up & Review	In-person	• MyLab Chapter 18 • Quiz #7
FINAL EXAM (Not Cumulative) Section 02 (2:30PM class): 12/16 3:00PM – 4:30PM SGMH 2207
